Reporting tools help you remain compliant with government hiring regulations (EEOC, veteran employment, disability, etc.) as well as help you to review and improve your own internal hiring processes. HireTouch offers a complete Report Writer tool, which allows you to build, save, and automate both standard and ad hoc reports. Take control of your reporting with HireTouch.

Search Committee Functionality

Based on permissions, HireTouch can allow search committees to access applicant information and provide feedback for potential hires. Jobs can be set up to contain specific evaluation criteria and committee members can perform evaluations and offer expertise in any and all of the different types of hires your organization may perform.
